

SPECIAL MIGRATION OFFER FOR PROOFPOINT ESSENTIALS PARTNERS

Keep Your Current Price – Upgrade to Proofpoint 365 Total Protection

To support a smooth and lucrative transition from Proofpoint Essentials to Proofpoint 365 Total Protection, we are offering an exclusive Sales Promotion for all migrating Essentials partners.

THE OFFER

All Proofpoint Essentials partners who migrate to Proofpoint 365 Total Protection will continue to pay their current price per unit per month until November 30, 2026.

This will ensure full pricing stability during the migration period, while enabling partners to immediately benefit from the enhanced capabilities of the Proofpoint 365 Total Protection platform.

Licensing Conditions

While partners will retain their existing price per unit per month until the end of November 2026, the licensing terms and conditions of Proofpoint 365 Total Protection will apply from the moment of migration:

- » Billing will remain aligned with the current per-unit per-month price.
- » The contractual and licensing framework of Proofpoint 365 Total Protection replaces the previous Essentials licensing model upon migration.

This promotion is designed to remove financial barriers, simplify the transition process, and reward partners for moving to a more powerful and future-proof security solution.
